

Jasper the space dog by
Hilary Robinson.

Jasper the space dog is about a dog who is fascinated by space. My favorite character was Jasper because he is funny and adventurous. My favourite chapter was called 'Cheesy Moon' when Jasper thought the moon was made of cheese! I thought the book was $\frac{50}{50}$ and some bits were good but some can be improved.

The book could be improved by putting more facts in but I still found it very funny and I particularly liked the picture of Charlie's parrot trying to say "jazz".

I recommend this book for early readers in year 2 and 3.

I hope you like this book.
