

- Which of the characters did you find the most interesting and why?

I found Clara and Will the most interesting characters because they are both very determined and they work really well together.

- Which of the characters did you not like and why?

I loved all of the characters even though some were evil, but if I had to choose, Robert was probably the character I didn't like because he was a liar.

- Did you learn anything new about the past from the book?

Yes I did. At the back of the book it says, 'The Author' and I learnt that there was a discovery of a one-hundred-year-old notebook in Suffolk.

- What made the history of the time it was set in interesting to you?

The fact that it was set in October 1916, makes the story more interesting to me.

- Was the plot exciting, thought provoking, serious or light hearted (or any combination of these)? The plot for me was exciting but also imaginative.

- What most stands out for you from the book? The fact that in the story they owned all the land and they called it, "The Earth House and Gardens and they planted food to send to the Hospital because the war was on so that is what stands out to me.

- Would you recommend it to other pupils?

Yes, I would because it is an amazing story and I love it. It may have 40 chapters in it but it is totally worth it!
