

My name is Lewis. the D.C.N.Y.C., and I am going with my Chief Eric the Red, to sail to the end of the earth, we will be away from home for a long time, so I must prepare my sea chest. I only have a small space on the Golden Dream, so I must only take what I really need and things that I will use.

In my sea chest I will put... My comb, my helmet, my sword, and my axe. My shorts, my my knife, my brooch, my needle, and my shield, and my coat, my cloak, cloak, and my lucky charm, and my hammer.

I have chosen these items because...  
 my helmet is needed when I need to brush my hair.  
 my sword is needed when I need to kill people. I need my shield to protect me.  
 because I need to keep my feet dry, my knife to cut my food.  
 I need my brooch to keep my coat on. I need my needle to  
 sew some of my clothes. my shield when people try to stab me.

I need my coat to keep me warm. I need my shoes to keep me dry.  
 I need my lucky charm because it will be with me. I need my hammer because it will be with me.
