Ancient Greek Government

Rights and responsibilities, power and influence

I would like to persuade you that tyranny is the best choice of government.

There are several points I want to make to support my point of view. Firstly it is better to have a stranger ruling or else if someone your family rules, there will only be arguments.

The government was too weak, we are a stronger government.

It's better to have a tyranny ruling, so everyone will be scared of him and do what he says straight away.

I would like to persuade you that this state is best ruled by a few people.

There are several points I want to make to support my point of view. Firstly if the state is ruled by all the citizens not everyone can agree.

If it is ruled by one person he might make the wrong decision and the citizens won't co-operate and will be unhappy.

But if it is by a few 'Best Heads' or the 'Brainy People' they can put all their 'superb' ideas together and make one 'brilliant' idea.

I would like to persuade you that democracy is the best government.

There are several points I want to make to support my point of view. Firstly we agree that democracy is the best government because that way everyone feels valued.

That way everyone gets their own say about their country.

We don't agree to a king or person from another country coming to our country. We will stop people fighting by voting.
