

# SELF-CATERING

This is our basic style accommodation, which is perfectly in the country side. Many choose this option because it is self catering, giving you more flexibility for meal-times. This is the choice for a family with young children.

# AZTEC HOLIDAYS

Our aim is to give you the experience of a lifetime.

The area of Lake Texcoco is full of wonders of the world. If you are very religious you may want to visit the temples and take a quiet moment to think. Maybe you would like to go on the steps of royalty and have a tour of Tenochtitlan in one the splendid lakes. Whatever you are looking for, Lake Texcoco will bring you joy.

# HOTELS

A WONDERFUL CONVERTED TEMPLE

The hotel option is the one to go for if you want all the hard work done for you. The plan above is standard but 1st class also involves a living room. The food is served at break-fast and in the evening, with optional lunch buffets.

## SOUVENIRS

Trading is very important to us Aztecs, and with thousands of markets you can buy with our currency cocoa beans, or bring along a valuable and trade that.

## DINING

Why not try out our stuffed tortillas? Even with slug 'n' snail filling!

We are very much into our food, so we hope you have a good appetite!

## THE TEMPLES

As the Temple of Tenochtitlan is being currently built, if you book now, you will be able to see one of the great examples of modern architecture in the marketplace.

When it is complete it is said to be the most spectacular the world has ever seen.
